

## Medici's Rational Mathematics Volume 1, Pts. 2-3

Filesize: 7.72 MB

### **Reviews**

*Just no words to explain. Indeed, it is actually play, nevertheless an amazing and interesting literature. Its been written in an exceptionally simple way and is particularly simply following i finished reading through this ebook by which in fact altered me, alter the way in my opinion.*

*(Leilani Rippin)*

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1895 Excerpt: .for this greater square, the proportion of E F to A E must be given. Now, in this case, it is found that E F: E A:: 1:4. Hence, when the linear unit A D is bisected at C, two linear nits are given as A C and C D either of which equal the fraction E F. By constructing square planes on these two nits, a magnitude of 4 nits is given to the unit A U P D. And now it is found that one of these areal nits, as A O, is an aliquot divisor for the greater square A H K F. It is shown in the exhibit, that the difference of this greater square and the lesser square first given, equals 9 areal nits; and as 4 nits= 1 unit, the difference in the magnitudes of the square A M N E and the square A H K F, computed by the given unit A U P D, is 2 J unit, or 2 units and 1 nit. Hence, the relative magnitudes of the two given squares (A M and A H) are: 4 and 6J. To express the ratio of the two squares, both must be reduced to nit values, in which case, the lesser square is represented by the number 25. The commensurational adjustment is proven by the equation: 16:25::14:6 16x6=100 4x25 = 100 This substitution of nit values for unit values, in order to obtain rational relations expressed in whole...
