Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Find and memorize dozens of anatomy terms in a flash with this quick-reference guide, whose grouping method helps you master with ease-and speed-the systems of the human body. - The Unique Benefit to you is that the Speed Learning for Anatomy book enables you to learn faster. -This Book Defines 9 of the Most Important Systems of the Human Body. They include the: Muscular System, Skeletal System, Cardiovascular/Cardiopulmonary System, Respiratory System, Nervous System and the Digestive System. -Speed Learning for Anatomy can also be used as a Quick Reference Guide before Tests. -Our Teaching Method Focuses on keeping Similar Anatomical Terms GROUPED TOGETHER so that you can easily locate, compare and memorize these terms at a glance. Every time you read the definition of any anatomy term, you will also see the definitions of all related anatomy terms. This is because they will be GROUPED TOGETHER in that very same section. You may even find new terms that you weren't even aware of. The definitions are brief and extremely accurate. The writing style is simplistic, non-ambiguous, and easy to understand, while maintaining a collegiate level of information. -See examples below. -An Example of this GROUPING TOGETHER of Similar Terms relates to the Blood Vessels. If you need to know the difference between a Vein and an Artery, you would open to the Blood Vessels section of the book. In this section, you will see GROUPED TOGETHER, the definitions of the Veins and Arteries, and therefore see their functions, and their differences. To complete your understanding of Blood Vessels, this section includes the definitions of all the other types of blood vessels in the body: They are the: Arteries, Veins, Capillaries,...
