

A College Algebra

Filesize: 6.59 MB

Reviews

This book is definitely not effortless to start on reading through but extremely fun to learn. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Aliya Franecki)

A COLLEGE ALGEBRA

To read **A College Algebra** eBook, make sure you follow the hyperlink below and download the file or gain access to additional information which might be in conjunction with A COLLEGE ALGEBRA ebook.

Theclassics.us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1904 edition. Excerpt: . $P = (a + b + c)^3$, we have $P = a^3 + (3a^2 + 3ab + b^2)a + 3(a + b + c)^2c + 3(a + b + c)c^2 + c^3$; where the leading terms of the several groups on the right, namely, a^3 , $3a^2$, $3ab$, $3a^2c$, are all of higher degree in x than any of the terms which follow them. From this identity we may find a , b , c , as follows: 1. Evidently a is the cube root of the leading term of P . 2. Subtract a^3 from P . As the leading term of the remainder, R_1 must equal $3a^2$, we may find b by dividing this term by $3a^2$. 3. Having found b , form $(3a^2 + 3ab + 3a^2c) b$ and subtract it from R_1 . As the leading term of the remainder, R_2 must equal $3a^2c$, we may find c by dividing this term by $3a^2$. 4. Continue thus until a remainder is reached which is of lower degree than a^2 . If this final remainder is 0, then P is, as was supposed, a perfect cube and its cube root is $a + b + c$. If this final remainder is not 0, P is not a perfect cube, but we shall have reduced it to the form $P = (a + b + c)^3 + R$, where R is of lower degree than a^2 . It is convenient to arrange this reckoning as follows: Example...
