Reviews

Very good electronic book and valuable one. It is actually written in basic words instead of difficult to understand. I discovered this ebook from my i and dad encouraged this publication to discover.
(Prof. Jevon Frami)

ARCHITEXTILES (PAPERBACK)

John Wiley and Sons Ltd, United Kingdom, 2007. Paperback. Condition: New. 1. Auflage. Language: English . Brand New Book. Focusing on the intersections between textiles and architectural design, this title communicates the full range of possibilities for a multidisciplinary design hybrid. It examines the generative concepts, forms, patterns, materials, processes, technologies and practices that are driving this cross-fertilisation in contemporary urban and architectural design. Architextiles represent a transition stage in the reorientation of spatial design towards a more networked, dynamic, interactive, communicative and multifunctional state. The paradigms of fashion and textile design, with their unique, accelerated aesthetics and ability to embody a burgeoning, composite and complex range of properties such as lightness, flow, flexibility, surface, complexity and movement have a natural affinity with architecture s shifts towards a more liquid state. The preoccupation with textiles in architecture challenges traditional perceptions and practices in interior, architectural, urban, textile and fashion design. Interweaving new designs and speculative projects for the future, Architextiles, brings together architects, designers, engineers, technologists, theorists and materials researchers to unravel these new methodologies of fabricating space. Contributors include: Dominique Perrault (DPA) Lars Spuybroek (NOX and University of Atlanta) Will Alsop (RCA and SMC Alsop) Nigel Coates (RCA and Branson Coates Architecture) Matilda McQuaid (Cooper Hewitt Museum) Ron Arad (RCA and Ron Arad Associates) Tristan Simmonds, Daniel Bosia and Martin Self (Arup Advanced Geometry Unit) David Wakefield (Tensys) Dagmar Richter (UCLA) Peter Testa and Devyn Weiser (Columbia University and Testa Architecture) Tom Verebes, Yosuke Obuchi and Theodore Spyropoulos (AA-DRL) Robert Kronenburg (University of Liverpool) Anne Toomey (RCA) Bradley Quinn Marie O Mahoney Mark Garcia (RCA).
