

## Now Is the Time for Modern Lift Stations: Why Your Community Needs to Upgrade to Innovative Systems

By Jon Dunham

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Given the likely impending installation of many technologically advanced lift stations in the United States, municipalities will recognize that their savings of manpower costs gain greater importance. This is done by no longer having to remove and replace clogged pumps as the DIP System(r) pumps are self-cleaning. Additional savings will accrue as the corrosion of lift station equipment and the station itself will cease. The use of bar screens and rakes, trash baskets, or comminutors, all requiring regular cleaning and maintenance at the wet well is no longer needed. The issue with flushables causing problems with lift station pumps will no longer need personnel attention. The neighborhoods will experience the added relief of no longer having the hydrogen sulfide gas odors due to the required local retention of sewage in a wet well as has been the practice through using submersible pumps for the last 60 years. The need for a wet well is also eliminated and it is converted to a clean, dry pumping system work area that is now safe for employees. A separate valve vault...
