Reviews

Without doubt, this is actually the best job by any publisher. It is written in basic phrases instead of difficult to understand. You will like the way the author publishes this publication.

University Press of America, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. A full understanding of the historical process must include studies of the social and economic conditions of societies as well as biographies of the people on which a clear understanding of history is based--but not just the great people. Biographies of average individuals, who exist in a society, have their own experiences and are acted upon by their surrounding environments, are essential to a clear and complete understanding of the past and its influence on the present. In this respect, Aleksandra Ziolkowska-Boehm has made a major contribution to furthering the understanding of World War II, and especially the part played by Poland and Poles, with her compilation of individual biographies of people who participated in many of its formative events. Ziolkowska-Boehm's protagonists include a variety of people and experiences that enhance the usefulness of the volume. There are: Tadeusz Brzezinski, a member of the Polish diplomatic corps; the hero who escaped the Lwow ghetto to fight in the Warsaw Uprising and later founded a theatre group in Montreal; a pilot who escaped from the Soviet Union to fly fighters over Great Britain; a photographer of the Warsaw Uprising; a nurse during the Warsaw Uprising; a personal memories of the post-war era move to the United States; a person who was forcefully deported with her family to the Soviet Urals, later escaping to the Middle East and eventually Mexico; the boy who, though only eight when the war began, but survived Pawiak Prison, moved to Brazil, and became an internationally-known poet and artist.
